Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: In claim 1, line 10, "member" should be changed to --members--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Yoshida

Re claim 1, Yoshida discloses a shock absorber comprising a multi-diameter stepped tube (see figure 5) having different diameter integral tube portions formed by partially reducing or partially enlarging a straight tube that can be plastically deformed, and at least one stepped portion (5) formed between adjacent edges of each different diameter tube portions to join the tube portions integrally, in which a smaller-diameter tube portion as one end of the multi-diameter stepped tube connected to a bumper, and which a larger-diameter tube portion as other end of the multi-diameter stepped tube is connected to a side member, a mounting part (11), having a quadrilateral shape with a diagonal length of which is longer than a diameter of the larger-diameter tube portion, positioned at a front end of the side member, and upper and lower

load transmission members (6, the top portion and bottom portion respectively) provided between an outer side surface of the larger-diameter tube portion and the mounting part.

Re claim 2, the mounting part is a front end surface of the side member (1).

Re claim 3, the mounting part is a plate member provided at the front end of the side member (1).

Allowable Subject Matter

4. Claims 4 and 5 are allowed.

Response to Arguments

5. Applicant's arguments filed 7/29/04 have been fully considered but they are not persuasive.

Applicant argues that the part 11 in the Yoshida reference cited by the examiner as anticipating the mounting part claimed by claim 1 is not a mounting part in the "sense" of applicant's invention. However, the applicant does not point out any specific structure encompassed by the phrase "mounting part" not disclosed by the structure shown in Yoshida. If the applicant intends to claim more specific structure, then such limitations should be incorporated into the claim.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
